Email sent to recipient

Reading and Replying to Emails

Plus tip:

This slide can be customized by adding screenshots to visually guide the audience through the steps.

Steps to Read an Email

- Access your email account by logging in with your username and password.
- Navigate to the inbox where incoming messages are stored.
- Click on the email you want to read to open and view its contents.

Steps to Reply to an Email

- Open the email message to which you want to reply.
 - Click on the 'Reply' button, usually found at the top or bottom of the email.
 - Compose your response in the provided text box and attach any necessary files.
 - Click the 'Send' button to send your reply to the recipient.
-

Internet Relay Chat (IRC)

Internet Relay Chat (IRC) is a multi-user chatting system that enables real-time communication over the internet. Users can join channels, which are dedicated spaces for discussions on various topics, and engage in conversations with people from around the world. IRC is known for its simplicity and efficiency, making it a popular choice for global communication. The service is generally free, allowing users to connect without any cost, which has contributed to its widespread use and longevity in the realm of internet communication.

Plus tip:

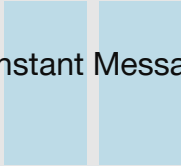

Customize the slide by adding a screenshot of an IRC client interface to visually demonstrate how users connect and chat in real-time.

Instant Messaging

Functionality

Instant messaging allows real-time communication between two or more users using typed text. It supports multimedia sharing and is often integrated into social platforms.

Using Instant Messaging

Users can log into chat rooms, add contacts, and start conversations. Popular applications include WhatsApp, Facebook Messenger, and Slack.

Steps to Use

1. Open the messaging app and log in.
2. Add contacts by searching for their usernames.
3. Start a conversation by selecting a contact and typing your message.

Plus tip:

Customize this slide by including screenshots or examples of popular instant messaging applications your audience is familiar with.

Thank you.
